

WORRY-FREE ONLINE SHOPPING WITH SAMBA

3-D SECURE NOW ON SAMBA CREDIT CARDS

Samba presents yet another innovative technology to make your online transactions even more secure. Introducing, **3-D Secure** at Samba, an online payment program for secure credit card transactions powered by Visa International and Mastercard®.

'Verified by Visa' and 'Mastercard® SecureCode™' enables you to enter a One-time password on checkout while shopping online. This service is only available at **3-D Secure** merchant sites.

How does 3-D Secure work?	How would I know if the merchant is a 3-D Secure site?
<p>Every time you make an online purchase at a participating retailer, a screen will automatically ask you for a One-time Password (OTP). At this point, Samba will send you an OTP to your registered mobile number with Samba. When you correctly enter the OTP back on the merchant website, Samba will confirm that you are the authorized cardholder and your purchase will be completed.</p>	<p>Look out for Verified by Visa or Mastercard® SecureCode™ logo(s) at the merchant website.</p>

Your Samba Card is automatically enrolled for **3-D Secure** for free.
